

## Case Management

At North Stream our Vocational Rehabilitation Consultants are experienced at managing a wide array of services and programs to ensure proactive and timely rehabilitation and treatment is facilitated. Following an initial assessment, the Rehabilitation Consultant will provide recommendations regarding a comprehensive rehabilitation plan. Following this, they will be involved with coordination of services, including monitoring and ongoing communications with key stakeholders for optimal rehabilitation outcomes.

### **Third Party Case Management:**

We will provide case management support services by seasoned, knowledgeable and dependable case managers. Our understanding of insurance policy and benefit parameters including limits and entitlements ensures establishment of realistic client expectations regarding available resources.

### **Rehab Coordination:**

At times the Health Care system can seem daunting, with multiple care providers, tests, assessments and appointments. We will assist with coordinating the rehabilitation requirements for clients with everything from soft tissue injuries to complex injuries and illnesses involving multiple Health care systems.
